

KIALMA by K-loop backpack

Converts into a work saddlebag with the removable straps.

External connector with cable for charging your devices.

This product features Aware™ traceability technology.

100% recycled polyester. Work backpack with padded compartment for computer (up to 15") and/or tablet. Organised main compartment and briefcase. Thanks to the removable padded straps concealed in the back, the backpack transforms into a horizontal work saddlebag with its own side handle. Large zipped top pocket. Large double front pocket with two separate openings and zipped storage compartments on right and left. External type C connector with internal cable for connecting a power bank. KIALMA is K-loop's top-of-the-range collection of bags and accessories. K-loop products contain markers in the thread and, thanks to blockchain technology, this means that the entire production chain can be traced. A special label with a QR code provides access to the Aware™ platform for direct authentication of certifications using a smartphone.
