

K-loop organic cotton flat tote bag

Made from 100% certified organic cotton.

K-loop collection: contributes to a circular economy.

This product features Aware™ traceability technology.

100% organic cotton. Flat shopping bag with handles, 70 cm long. K-loop organic is K-loop's organic cotton collection. During the spinning process, tracers are added to the raw material: viscose and ceramic filaments that act like a unique fingerprint. The tracers reflect light and therefore have a unique, unalterable code. This means we can store all the information about the processes to which the yarn has been subjected unambiguously in a blockchain. Thanks to Aware™ tracking technology and its blockchain platform, Kimood enables end consumers to follow the entire production process. This guarantees that the product is genuinely made from organic cotton, without any possible alteration during the process. A special label with a QR code can be used to access the Aware™ platform and authenticate certifications directly using any smartphone.
